PROFESSIONAL SUMMARY

AI Automation Specialist with 2+ years of experience building automation systems that replace manual work and improve efficiency. Skilled in n8n, Make, and Zapier, with hands-on experience connecting AI agents and tools like ChatGPT and Claude to real business systems. Experienced in building automations with proper error handling, monitoring, and security controls. Focused on building automated customer support tools for e-commerce, social media, and business clients.

CORE SKILLS & COMPETENCIES

AI & Automation: n8n, Make (Integromat), Zapier, Claude Code, Antigravity, Codex, UiPath, AutoHotKey, GoHighLevel (GHL), QuickCEP, MCP (Model Context Protocol), AI Agent Frameworks

Programming: Python (web scraping, scripting), JavaScript, HTML/CSS, React JS

Integrations & Databases: HubSpot, Airtable, Supabase, REST APIs, Webhooks

Systems & Security: Error Handling, Retry Logic, Logging & Monitoring, API Secrets Management, Service Accounts, Permission Controls

Engineering Tools: AutoCAD, DIALux, SketchUp

Design & Creative: Adobe Photoshop, Illustrator, InDesign, Canva, Adobe Creative Suite

Platforms & E-commerce: Shopify, Amazon Seller, Facebook Business Suite, Microsoft Planner, Trello, Notion

Soft Skills: Problem-Solving, Project Management, Team Collaboration, Client Communication

PROFESSIONAL EXPERIENCE

Freelance AI Automation Developer

Freelance / Multiple Clients | Remote, Part-Time | 01/2026 - Present

- 1st Client: Built inbound voice agent to qualify law firm leads and outbound agent to follow up invoices using Retell AI. Connected the agents to n8n and GoHighLevel to record and update leads.
- 2nd Client: Built inbound voice agent to qualify mechanic repair leads. Filtered leads via n8n and sent the qualified data to Fieldpulse.
- 3rd Client: Built and maintained Make Scenarios connected to Meta Ads. Also updated the marketing department of the client's self-coded CRM via Claude Code.
- Added error handling, retry logic, and monitoring alerts to automations, so systems keep running even when one step fails.
- Used MCP (Model Context Protocol) and AI agent frameworks to connect agents to business tools and complete multi-step tasks.
- Set up API keys, service accounts, and permission limits to keep client systems and data secure.

Facebook Automation Specialist

Freelance / Multiple Clients | Remote, Part-Time | 08/2025 - 06/2026

- Build n8n workflows that watch Facebook Page inboxes, sort customer messages with AI (ChatGPT, Claude), and send accurate auto-replies.
- Connect the Facebook Graph API with n8n to handle comment replies, direct messages, and lead sorting for several client pages at once.
- Set up backup rules so tricky or sensitive questions get sent to a real person instead of AI.
- Help clients get faster response times and more sales from customer messages.

Technical Virtual Assistant - Hi-Hyperlite

Remote, Full-Time | 07/2024 - 07/2026

- Use AI automation tools (QuickCEP CRM, n8n, AutoHotKey) to cut response time from 2 hours to under 30 minutes.
- Create lighting designs using DIALux, AutoCAD, and Photoshop, with an 80% client approval rate on the first try.
- Support customers by email, phone, and chat, solving 95% of issues on the first contact.

Resident Engineer - The SM Store Baguio

Baguio City | 03/2024 - 07/2024

- Managed maintenance for all mechanical, electrical, plumbing, and fire safety systems.
- Led renovation projects, following Philippine building codes, on time and on budget.
- Set up a preventive maintenance schedule that reduced emergency repairs.

Safety Officer 3 - Global Agility Solutions, LLC

Baguio City | 01/2019 - 02/2024

- Reduced workplace incidents by 30% over five years through inspections and fixes.
- Built safety training materials and campaigns, reaching 100% employee compliance.
- Used AI tools (Perplexity, Claude) to study incident patterns, cutting repeat incidents to near zero.
- Kept the company fully compliant with RA 11058 and OSH rules, with zero violations in audits.

Virtual Assistant - Atlantic for Wholesale & Distribution, LLC

Remote, Part-Time | 10/2021 - 06/2023

- Built Python tools to track market data and find new product ideas that brought in more revenue.
- Grew social media followers from 150 to 9,500, raising engagement by 65%.
- Improved website speed by 10% using HTML, CSS, JavaScript, and React.

Technical Virtual Assistant - G&K Electrical Services

Remote, Part-Time | 01/2021 - 08/2021

- Created lighting and solar designs for clients using AutoCAD, DIALux, and SketchUp.
- Used Trello to manage projects and improve on-time delivery.

Maintenance Supervisor - The SM Store Baguio

Baguio City | 01/2018 - 06/2018

- Led a team of electricians and plumbers, completing all maintenance work on time with a 15-minute emergency response time.
- Set up a preventive maintenance plan that reduced system failures and extended equipment life.

Chat Support Representative - Chatsmith Online

Baguio City | 01/2017 - 09/2018

- Handled 100-150 chats a day for U.S. real estate clients, keeping a 95% satisfaction rating and fast response times.
- Labeled LIDAR data for AI projects, improving data accuracy by 25%.

Cadet Engineer - Benguet Electric Cooperative (BENECO)

Baguio City | 10/2015 - 09/2016

- Maintained electric meters and line poles to improve system reliability.
- Improved the electrical permit process, reducing approval time.

EDUCATION

Bachelor of Science in Electrical Engineering

Saint Louis University, Baguio City | 2015
